EDUCATION

Pune Institute of Computer Technology (PICT), Pune, Maharashtra
Bachelor of Engineering in Computer Engineering *2027*
CGPA: 9.69

PROFESSIONAL SUMMARY

Java developer with strong foundations in OOP, DSA ,DBMS ,OS , and backend development using Spring Boot with relational and NoSQL databases. Adaptable, analytical, and effective at team collaboration with hands-on project experience in scalable backend systems, caching, and deployment. Multilingual: English, Hindi, Marathi, and learning Tamil.

TECHNICAL SKILLS

- **Languages:** C++, Java, Python
- **Frameworks & Libraries:** Spring Boot, Hibernate (JPA), Lombok, JUnit
- **Web Technologies:** RESTful APIs, XML
- **Databases:** MySQL, PostgreSQL, MongoDB, Redis
- **Build Tools:** Maven, Docker
- **Tools:** Git, GitHub, Postman
- **IDEs:** IntelliJ IDEA, Eclipse, VS Code
- **Tools:** AutoCAD, Blender

PROJECTS

FinTrack: Personal Expense Manager GitHub *June 2025 – July 2025*
Spring Boot, Java, MySQL

- Developed a RESTful application to track expenses across multiple categories per user.
- Secured 10+ API endpoints with JWT authentication, validation, and exception handling.
- Implemented filtering and chart-based summaries, storing 1,000+ records.
- Optimized SQL queries with indexing, improving average response time by 30%.

RESPAWN: Game Support Extension GitHub *Sept 2025 – Ongoing*
Spring Boot, React.js, Redis, Docker, MongoDB

- Built a Chrome extension to fetch missing runtime dependencies for games.
- Integrated backend with Redis caching and MongoDB for scalable, fast retrieval.
- Designed modular APIs with Spring Boot, supporting smooth extension-backend communication.
- Deployed using Docker for reproducibility and future scalability.

CHECKPOINT: Dynamic Ridesharing Management System GitHub *July 2025 – Ongoing*
Spring Boot, React.js, PostgreSQL, Redis, Docker, WebSockets ,OAuth2 , JWT

- Designed core schema with entities for users, vehicles, rides; ensured relational integrity.
- Developed CRUD APIs for ride management with JWT authentication and role-based access.
- Implemented real-time ride updates using WebSockets and Redis caching.
- Integrated Google Maps API for ride search, routing, and live updates.
- Automated CI/CD pipeline with Dockerized deployment for future scalability.

ACHIEVEMENTS

- Solved 330+ DSA problems on LeetCode; Contest Rating: 1385
- MHT-CET 2023: 99.58 percentile (AIR: 954) & JEE Mains 97.8 percentile
- Represented PICT in Volleyball; won multiple inter-college tournaments (2024)
- Team Manager , PICT Volleyball Team
